Register for the Business Network's OSW Port & Vessel Summit in Norfolk, VA

Copy:

Hosted by the Business Network for Offshore Wind, the [OSW Port & Vessel Summit](#) brings together maritime industry leaders to discuss the challenges and opportunities facing the nation's offshore wind port and vessel infrastructure.

Ports and vessels are the backbone of the U.S. offshore wind industry. Understanding the improvements needed for the nation's port infrastructure, as well as ensuring the availability and capacity of vessels, will be critical over the next decade as more turbines are installed in East coast waters. As the pipeline of projects continues to grow, the industry needs to come together to determine logistics to affordably and efficiently receive, transport, hold, and install turbine components.

Join your industry colleagues in **Norfolk, Virginia, September 27-28, 2022**, to discuss and learn about the many port and vessel business opportunities rapidly unfolding in the U.S. offshore wind energy industry. [Register today.](#)

Host sponsors: Hampton Roads Alliance and Virginia Maritime Association

WEBSITE

offshorewindus.org/port-and-vessel
